

3.19.66

Dear Mother:

This has been quite a day. I have been working on the data for the Marine to establish their trust accounts and for Werner to make up the income tax returns.

The enclosed papers need your signature as well as mine so I am forwarding them to you.

Please sign where marked "x" and return to Werner in the enclosed envelope.

The letter to Ernst & Ernst is to get cost data required for income tax purposes on sale of land to Owens.

The Powers of Attorney are to register stock certificates in Marine name for dividend checks, etc. You are still owner - Marine is your agent.

The letters or forms - to Wis Dept of

Taxation and Internal Revenue Service are for an extension of time to file income tax returns. While I have given Werner all data required, he will probably have questions and what with correspondence back and forth, it will be after April 15<sup>th</sup> - without doubt - before everything will be in order.

That covers our business, I believe. This whole day has been a labor of love for, of course, every minute of it has brought back so many fond memories of Dad. His notations and precise records have always been in evidence. Our many wonderful conversations and walks and work together over the years - these memories - make me so grateful for such a very fine, wonderful, wonderful Dad.

KIM

And Mother. Mom, we are and have been greatly blessed by you two marvelous parents, grandparents and great-grand parents!

I hope things haven't been too difficult for you in getting back to Ft.

Atkinson. I think of you often and wish - as you say - I could be triplets.

I spent thru Thursday in Sheboygan and Thurs. PM stopped with suits to see Hugo Mandl - tailor.

I was well pleased with him and he remembered you and Dad.

I'll pick up remodeled suits (very little altering necessary) on next trip to Wisconsin. They sure will come in handy.

Lots of love, Mom,

Kim
