

Taber altar

Oct 24 1930

Dear Norman Everett.

Just a line to let you know Papa is sick.

This morning he went to such a long way out of town to put in car. It came with such a force that it nearly got him. He was alone he had to lay down. Next his breath he said it went right to his lungs but he ate a little breakfast then he lay down and had a little sleep. He got up and felt good he said so he went out and unloaded a load of bundles they were threshing. He took a terrible pain in his right lung. I send for the Dr. He said he couldnt find out what was wrong but he came out again and said it might be developing pneumonia and we think it has. He said he would be out again tonight we also had the others.

Please pray. I made the get well

we will telegraph you so please
don't get upset till you cause
I will let you know if he gets
worse.

Hoping you are as well as
can be.

Mother.
